Our dynamic and well-informed team will be on hand to discuss your specific requirements and answer any of your questions.

SmartSoil Energy Inc. is a leading provider of clean energy technology, developed by its parent company Soconag, in the worldwide campaign towards climate protection. SmartSoil does so by providing innovative solutions for transforming “problem biomass” into clean gaseous fuel, primarily through landfill-gas-to-energy initiatives. Its patented and certified technology provides unprecedented monitoring and control capabilities. For more information, visit us at www.smartsoil.com.
